(54) LIQUID CRYSTAL PROJECTOR

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a liquid crystal projector capable of remote operation, without having to use exclusive applications for control of a liquid crystal projector through a control computer.

SOLUTION: The liquid crystal projector includes a server means, connected to a control computer via a network. The server means includes a means for controlling the liquid projector, according to the demand from a browser of the control computer connected to the network.
